

Tailored Solutions *Phlebotomy Carts*

Thoughtful designs for smooth workflows

Blood draws are the most common invasive medical procedure in hospitals worldwide. They're also one of the least enjoyable for patients and even phlebotomists who regularly bend awkwardly and search for supplies. Ergotron's tailored phlebotomy solutions support speedy and comfortable blood draws for both patients and caregivers with height-adjustable, mobile designs that keep vials, sharps and all supplies at the ready.

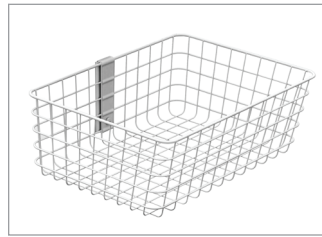

Tailored Solutions *Phlebotomy Carts*
